**CEO and President Comments**

Ernie Herrman, Chief Executive Officer and President of The TJX Companies, Inc., stated, “We are extremely pleased with our strong fourth quarter results, with both sales and earnings per share exceeding our expectations. Fourth quarter consolidated comparable store sales increased a very strong 6%, significantly above our plan and over a 4% increase last year. I am most pleased with the consistency of the performance across our major divisions, which all delivered comp sales growth between 4% and 7%, driven by customer traffic increases. Fourth quarter earnings per share were also above our expectations due to the better-than-expected divisional performance. Our excellent values on great brands and great gift giving assortments resonated with consumers around the globe this holiday season, and once again this quarter, our apparel and home businesses were both strong.”

Herrman continued, “We were also very happy with our full-year performance as consolidated comparable store sales were up 6% in 2018, marking our 23<sup>rd</sup> consecutive year of comp sales growth. Full-year adjusted earnings per share also exceeded our plans. Looking ahead to 2019, the year is off to a solid start. We are confident that we are capturing market share and are pursuing many initiatives to keep driving sales and customer traffic. Further, we are excited about the plentiful buying opportunities available to us in the marketplace for major brands. Long term, we are energized by the vast opportunities we see to expand our retail banners and continue our successful growth around the world!”

**Shareholder Distributions**

With the Company’s continued strong cash flow, TJX intends to increase the regular quarterly dividend on its common stock to be declared in April 2019 and payable in June 2019 to \$.23 per share, subject to the approval of the Company’s Board of Directors. This would represent an 18% increase in the current per share dividend and mark the 23<sup>rd</sup> consecutive year that the Company has raised the dividend. Over this period of time, the Company’s dividend has grown at a compound annual rate of 22%.

The Company also announced today its plan to repurchase approximately \$1.75 to \$2.25 billion of TJX stock during the fiscal year ending February 1, 2020. With \$1.7 billion remaining at Fiscal 2019 year end under the Company’s stock repurchase programs, the Company’s Board of Directors approved a new stock repurchase program that authorizes the repurchase of up to an additional \$1.5 billion of TJX common stock from time to time. The new authorization represents approximately 2% of the Company’s outstanding shares at current prices. The new stock repurchase program marks the 20<sup>th</sup> program approved by the Board since 1997. Over this period, the Company has spent approximately \$22.1 billion on the repurchase of TJX stock. During the fourth quarter, the Company spent a total of \$855 million to repurchase TJX stock, retiring 17.8 million shares. In Fiscal 2019, the Company spent a total of \$2.5 billion to repurchase TJX stock, retiring 51.8 million shares. Under the Company’s repurchase plans, share repurchases may be made from time to time in market or private transactions and may include derivative transactions. The repurchase program announced today has no time limit and may be suspended or discontinued at any time.

Ernie Herrman commented, “Our business continues to generate tremendous amounts of cash and deliver strong financial returns. In 2019, we plan to continue investing to support our growth while distributing cash to our shareholders. Our capital spending plans include investing in new stores, store remodels, and our supply chain and infrastructure. Simultaneously, we’re planning a strong increase to our regular quarterly dividend and to continue our significant buyback program. These actions underscore our confidence in our ability to continue delivering strong, profitable sales and cash flow that enables us to both fund our continued growth and return value to our shareholders.”

**Impact of Foreign Currency Exchange Rates**

Changes in foreign currency exchange rates affect the translation of sales and earnings of the Company's international businesses into U.S. dollars for financial reporting purposes. In addition, ordinary course, inventory-related hedging instruments are marked to market at the end of each quarter. Changes in currency exchange rates can have a material effect on the magnitude of these translations and adjustments when there is significant volatility in currency exchange rates.

The movement in foreign currency exchange rates had a one percentage point negative impact on consolidated net sales growth in the fourth quarter of Fiscal 2019 versus the prior year. The overall net impact of foreign currency exchange rates had a \$.01 negative impact on fourth quarter Fiscal 2019 earnings per share, compared with a neutral impact last year.

The movement in foreign currency exchange rates had a neutral impact on consolidated net sales growth in Fiscal 2019 versus the prior year. The overall net impact of foreign currency exchange rates had a neutral impact on Fiscal 2019 earnings per share, compared with a neutral impact last year.

A table detailing the impact of foreign currency on TJX pretax earnings and margins, as well as those of its international businesses, can be found in the Investors section of [tjx.com](http://tjx.com).

The foreign currency exchange rate impact to earnings per share does not include the impact currency exchange rates have on various transactions, which the Company refers to as "transactional foreign exchange."

**Full Year and First Quarter Fiscal 2020 Outlook**

For Fiscal 2020, the Company is comparing all earnings per share estimates to Fiscal 2019 earnings per share results that include the benefit from the 2017 Tax Act. The Company is taking this approach to show year-over-year EPS on a like-for-like basis.

For the 52-week fiscal year ending February 1, 2020, the Company expects diluted earnings per share to be in the range of \$2.55 to \$2.60. This would represent a 5% to 7% increase over the prior year's \$2.43, which included a \$.02 negative impact from a pension settlement charge. The Company expects diluted earnings per share to increase 4% to 6% over the prior year's adjusted \$2.45, which excluded the pension settlement charge. This guidance reflects an assumption that the combination of incremental freight costs and store wage increases will negatively impact EPS growth by approximately 4%. This EPS outlook is based upon estimated comparable store sales growth of 2% to 3% on a consolidated basis and at Marmaxx.

For the first quarter of Fiscal 2020, the Company expects diluted earnings per share to be in the range of \$.53 to \$.54 compared to earnings per share of \$.56 last year. The Company expects the combination of incremental freight costs, store wage increases, and foreign currency to negatively impact first quarter EPS growth by approximately 7%. This EPS outlook is based upon estimated comparable store sales growth of 2% to 3% on a consolidated basis and 3% to 4% at Marmaxx.

The Company's earnings guidance for the full-year and first quarter of Fiscal 2020 assumes that currency exchange rates will remain unchanged from the levels at the beginning of the first quarter.

**Stores by Concept**

During the fiscal year ended February 2, 2019, the Company increased its store count by 236 stores to a total of 4,306 stores. The Company increased square footage by 4% over the same period last year.
