

Voluntary Carbon Market Disclosures (California Assembly Bill 1305)

The TJX Companies, Inc., together with its direct and indirect wholly-owned subsidiaries (“TJX”), does not market or sell voluntary carbon offsets within the state of California or elsewhere. In addition, TJX does not purchase or use voluntary carbon offsets sold within the state of California.

TJX has made claims regarding the achievement of net-zero emissions in our operations, renewable and low-carbon energy sourcing, and other claims related to carbon dioxide or greenhouse gas emissions.

For information regarding TJX’s global climate and energy commitments and how progress towards attaining these commitments is being measured and validated, please reference [TJX’s 2024 Global Corporate Responsibility Report](#) and its response to the [2024 CDP Climate Change Questionnaire](#).
